

Sprint 3 Report

Product Name: LEMMA

Team Name: LEMMA

Date: May 19, 2025

Actions to stop doing:

- Being late to meetings

Actions to start doing:

- Add integration testing
- If time permits, add testing for the entire question-answering system. This includes the process of breaking fixtures into chunks, embedding chunks, and retrieving chunks.

Actions to continue doing:

- Add more detailed descriptions for each feature
- Specify more context regarding the changes made in pull requests
- Ensuring clear communication/coordination on Discord
- Using pull requests for all code changes with peer review
- Updating the project board to reflect progress
- Self-assigning tasks that match individual strengths
- Delete old/merged development branches
- Add unit tests

Work completed/not completed:

- All of the planned tasks for sprint 3 have been completed successfully
- Moved US 3.4 to backlog as it became unnecessary and out of the scope during this sprint; will revisit if time permits, since this was an ambitious plan.

Work completion rate:

- 100%
